## BIGGER THAN AN RV

Another year of travel. We have started our travels later this year, due to some medical problems. Recuperation required an Alaska cruise in May, and a cruise to Italy, Greece and Spain, in August! There is a bit of a difference in size, as you can see.

We visited Venice, a very different and beautiful city. We also loved the island of Santorini and the Isle of Capri.

It is finally time to realize that old age and infirmity is creeping up on us!

This was a very tough trip. It was exacerbated by the fact that the old country has towns built on hills, and narrow streets where buses cannot travel, which requires a lot of walking. It is becoming hard to keep up with the group, and harder to recover.

We have decided to make a trip east in the motorhome, to find the remaining few Peter Toth statues. The website has become amazingly successful as a worldwide reference for his works. It would be a shame to leave it unfinished.

Again we have extended an invitation to my sister Marti, to travel with us across the country, and she accepted. She adds a lot of fun to the trip!

She will come home from her trip to Hawaii, and then fly to Billings, Montana and join us. The trip is planned to go to Winnipeg and North Bay Ontario. Then down through Buffalo, New Hampshire, Pennsylvania, North Carolina, Tennessee, Florida, Mississippi, Louisiana, Texas, then home.

We hope to find interesting things to write about in the journals.

Dave & Bonnie
