## VISIT THE FALLS IN THE FALL

We arrived in Hamilton and visited with our cousins. We also used this opportunity to drive to Niagara Falls without the motorhome. It was a beautiful clear day and we had great views of the falls. Going here this late in the season was an experience. Many things were closed. The park and ride lots were closed for the season and there was no bus service from the lots to the falls. The lots close in were open and charged \$18 to park. We found a small lot and paid \$13 for 3 hours. I fully expected the spigot to be turned, and the Falls shut off!

It is getting hard to find campgrounds that are still open. We were glad to get back into the States, where we could get fuel for \$3.25/gal.

The first day in the States, we got to Williamsport, PA and found the next Indian statue on our list. The plan is to return to New York and continue east to New Hampshire where we will visit the Schmidt cousins.

The fall colors are almost breathtaking, as we progress eastward. Our cameras are working overtime!

The two lane roads in Vermont and New Hampshire are jammed with leaf peepers. We timed one jam at 4 1/2 miles long to get thru a one stoplight town! The Schmidt's treated us to a delightful 2 hr. cruise around Lake Winnepesaukee on the M/S Mount Washington. We enjoyed a visit with them and now are on our way to North Carolina. It should take us three or four days. We can only find a Sams Club parking lot to stay in tonight, under a full moon.
