## **ARE WE IN THE SOON TO BE STATE OF JEFFERSON?**

**After a long tiring drive of 31 miles today, we are relaxing in the Thousand Trails, Lake Minden preserve. Reading the local paper indicated that the Sutter County Supervisors has officially endorsed the State of Jefferson! They will succeed from California when the time comes. Apparently no one has thought about where they will get the monies that the State currently furnishes them for education, highways, etc!**

**The search for cooler weather led us to the north and Benbow. There we woke to 56 deg temp for the morning. We could only get 1 night there so off we go to the historic town of Ferndale. We are at the Fairgrounds, within “hearing distance” of the ocean. And we have found our 74 deg weather we have looked for!**

**Ferndale, CA is a historic town famous for its restored Victorian mansions. There are dozens of them. Driving around town, we came upon a cemetery that had the burial grounds going right up the side of a fairly steep hill.**
