

THE LONGEST STATE IN THE US

We found that out ourselves. We just realized that it has taken us 17 days to reach the Oregon border! We have been staying at the Brookings OR. Beachfront RV for four days, right on the oceanfront where the 56 degree temps in the morning have us turning on the heater! This is how we park for the ocean view.

This is one of our favorite spots along the coast of Oregon. Next we traveled up to Florence for 3 days. This area is in the proximity of the Oregon Sand Dunes. There are lots of them, and certainly a lot cooler than ours in the desert at Glamis!

Our preserve at Seaside, OR was full to the brim, so we opted to go further north to Pacific City Thousand Trails four 4 days.

Highway 101 is a slow moving route thru beautiful coastal country. There are still a few logging operations going on, but nothing like the heyday years ago. We passed one place where they were loading a huge cargo ship with wood chips to go to China so they could make particle board and ship it back to us. What a world nowadays!
