## IN SEARCH OF COOL?

**We're off again, off again, jiggy jig, in our 32 ft 20K lb rig. For a 5000 mi. 100 day jaunt, if we don't eat much, we could return**

**gaunt! We're packing 40 megapixels, 64K, 750 Gigabytes, 17 in. display. 75 gal. 8100cc, 496 hp. Sleeping for three. Pulling a ton and a half toad filled with goodies**

**to eat, we're just two 85 yr olds on a summer retreat, and we won't show oncoming traffic this frightening sheet! (Remember the good old days when we just packed a suitcase and grabbed a Kodak Brownie!)**

**We will start our 2015 odyssey in Las Vegas, then visiting Zion and Bryce Canyon, up to Park City, UT then Idaho and BC, then Washington, Oregon and home, about a hundred days or so later.**

**Plans are then to rest up on a cruise to Mexico.**

**As usual, we will send you a few posts of interesting things as seen thru our eyes.**

**Dave & Bonnie**
