## **THE LONG KICKBACK**

**We now are starting our residency at TT La Conner, WA We checked in on 8/05/15 and will not be leaving until 8/23/15! This will be the longest time we have camped in one spot in our lifetime. Believe me that is a long time. We were going to stay a shorter time and then go to Bothell, WA to stay with our friends. We then found out that they were going to be camped here at that time. So we extended our time here, to be with them.**

**We are amidst a beautiful berry patch, however the TV reception is very dicey. So far we have only had one neighbor in our tight cul-de-sac. Mid-way thru our stay we had rain! Something we have not experienced for a while in CA!**

**One Tuesday we went to the Swinomish Indian casino where they have a special on the buffet, lunch or dinner. \$4.99 per person. It was a full buffet menu with several meats included and any drink, except alcohol, included! Definitely worth the drive there.**

**We have overstayed the capacity of our holding tanks and have signed up for a \$25 pump out. We overflowed the day before and had to have an emergency pump out for \$50 ! At our age it is still worth it to not have to unhook and move to the dump station.**
