A BIG BOAT PLACE

From La Conner we started with our visiting mode. We spent a couple of days in the driveway of our friends the Andersons in Bothell, WA. From there we moved driveways to Bremerton, WA. , where we visited our friend Pam Santos.

One of the interesting things we learned about Bremerton, was that they have a huge Naval Shipyard that employs over 50,000 people. To control the commute traffic, they have ½ hour staggered work shifts, six of them, instead of unleashing all the traffic at once. This, combined with shopping traffic, creates almost full time traffic jams!

We moved driveways again, to our friends the Euckers' in Olympia, WA. After we finish our visit here, we will move to a succession of Thousand Trails Parks down the coastline.
