

## **HEADING FOR THE COOL COAST**

**Leaving the Sacramento State Fairgrounds, we headed North on IS5. North of Sacramento there are miles of rice growing ponds. The rice grown here exceeds the amount grown in many countries in the Pacific and most is exported. We are one of the largest rice producers in the world. As we proceed towards the coast we pass acres and acres of Almond tree orchards, with many more being planted. State highway 20 is a 2 lane road with many curves, which are tolerated on our way to cooler coastal climates!**

**We passed a State highway sign stating that “Traffic safety education will be improved by enhanced enforcement procedures”**

**In the common language of the people, “We gonna teach you the law bro, by putting a ticket on you ass!”**

**Route 20 takes us beside Clearlake, which is the largest lake in Northwestern California. Summer lakefront homes and boats and docks occupy the shoreline for miles.**

**We are here for the night in the Willits KOA which, would you believe is \$67/night! The place is full.**

**Dave & Bonnie**
