Volume 1 Issue 3

Man is it COOL, so refreshing!

We got Beachfront Property FREE OF CHARGE

This morning we left Bodega Bay at about 8:30. We drove thru Sebastapol and on to highway 101 North.

Lunch was had at a cool rest stop in the mountains.

We were heading for Crescent City and we came upon a beach along the road that we remembered and said we wanted to camp there.

We got gas at Healdsburg and the cheapest gas was \$1.47.9, so we got about \$60 bucks worth!

It is called Freshwater Lagoon Spit. It is managed by the Redwood National Forest and is free unless you want to make a donation of \$5.00.

We almost had to float a loan!

We went for a long walk on the beach and are enjoying the cool. The temp is 58 deg outside now and the sun is reflecting off the water and you can hear the gentle roar of the surf.

Please Bear with us if we ramble.

The drive thru the Redwoods was as pleasant as ever. Most of the tourist traps have already gotten our money.

So we have to drive an extra 30 miles tomorrow, it's worth it to remain here.
